Agenda: Library Appurtenances

We were given worksheets from the Architects to brainstorm and fill out. These listed areas within the library and what we would like to see either when the library opens or in the future, to insure the infrastructure is in place to facilitate easier installations.

Karen will type these up and send them to Emily Clark who will get them back to the architect. Areas discussed included the children's section, a teen section, adult area, administration area, library storage/work room, the library desk area and special collections area including a "Library of Things".

Kate O'Neill moved to adjourn and Glenda Leake seconded the motion. Passed unanimously.
Adjourn: 7:40 pm

Respectfully submitted,
Kate O'Neill
